info@ubtiinc.com

UBTI has been serving clients since 1996 and has offices in the United States and Asia Pacific. Asset managers rely on our services every day for timely insight on billions of dollars of positions. We've worked hard for our reputation as a trusted and knowledgeable technology service provider.

UB Technology Innovations, Inc. (UBTI) saves asset management firms time. It's as simple as that.

We integrate and enhance your existing systems so you can see the information you need, when you need it. This allows firms to spend more time on what matters most: managing risk, maintaining compliance, reducing expenses, and focusing on customers.

RAPID SCALING ON DEMAND

UBTI's experienced team swiftly integrates systems, significantly reducing ramp-up time. Our configurable framework and expertise in asset management and data integration enable us to efficiently develop and complete your projects.

TRANSPARENCY AND FLEXIBILITY

We implement the optimum process to meet your needs, keeping you informed every step of the way. Our developers offer top-notch support whether they are working from our office or yours.

CONVENIENTLY VIEW ESSENTIAL DATA

Custom dashboards give portfolio managers instant visibility into their portfolio, performance, and risk exposure, allowing for in-depth analysis of complex information with deeper insight and greater clarity.

ALL OF YOUR DATA IN ONE PLACE

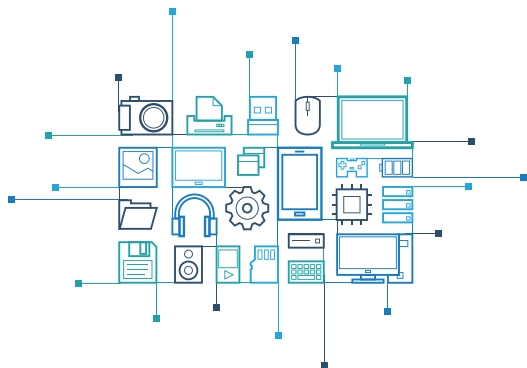

Enjoy seamless integration of your trade order execution, compliance, portfolio accounting, and risk management systems. We also integrate various data feeds such as trade, security, position, portfolio, pricing, and holdings.

EFFICIENTLY GENERATE REPORTS

Compliance is everything. Our integration services allow you to quickly generate reports for compliance and portfolio analytics.

Through a combination of experience, client focus, and innovative technology, UBTI can become your trusted partner in delivering end-to-end solutions or in supplementing your internal resources on a project-by-project basis.
